

PerfectLaw[®] Minimum Networking Requirements

The following recommendations are established minimum system requirements. For your specific PerfectLaw[®] installation requirements/recommendations, please contact one of our PerfectLaw[®] Network Engineers.

Workstation	
Running PerfectLaw [®] All-in-One [®] Software, word processor, and email program <i>Additional requirements for Time & Billing Workstations</i>	<ul style="list-style-type: none"> - Microsoft[®] Windows XP SP3 (32-bit supported) or Windows 7 Professional (32/64-bit supported) - 2 GB RAM (<i>3 GB RAM</i>) - 2 GHz Core 2 Duo (<i>2.6 GHz Core 2 Quad</i>) - Gigabit network
Database Server	
SMALL SIZED FIRMS (up to 10 users):	<ul style="list-style-type: none"> - Microsoft[®] Windows Server - Microsoft[®] SQL Express¹ - 2.0 GHz processor - 4GB RAM - 100GB Available disk Space
STANDARD SIZED FIRMS (11 to 75 users):	<ul style="list-style-type: none"> - Microsoft[®] Windows Server/64-bit - Standard Microsoft[®] SQL Server/64-bit - Dual 2.6 GHz processor - 8GB RAM - Available disk space requirements vary based on document storage needs
ENTERPRISE SIZED FIRMS (>75 users):	<ul style="list-style-type: none"> - Microsoft[®] Windows Server/64-bit - Standard Microsoft[®] SQL Server/64-bit - Dual/Quad 2.6 GHz processor - 8GB RAM - Available disk space requirements vary based on document storage needs
Remote Offices	
Connection Support	Remote office connection via Terminal Server or Terminal Server with Citrix are supported.
Remote Access:	<ul style="list-style-type: none"> - Microsoft[®] Windows 2003/2008 - 32-bit and 64-bit supported - 2 GB RAM free² - 2 GHz minimum - Gigabit network recommended
WebCIS and other webparts	
Web-based server	Requires Window Server 2003/8 IIS web services

Two workstations, representing the most common windows configurations, should be available for configuration and installation testing.

A dedicated computer and network login is required for PerfectLaw[®] remote support (other than those required for normal processing by Buyer).

¹ SQL Express Edition supports a limited database size, single processor server, and 1 GB of RAM in the buffer pool. Depending on performance requirements and existing hardware, Standard SQL may be required.

² Additional memory be required depending upon the number of concurrent users.

Additional System Requirements for Applications

REQUIREMENTS FOR PERFECTLAW[®] IMAGING CAPTURE TOOL (*PAPERLESS WORKFLOW[®]*)

- Software resides on a workstation with Windows 32-bit Desktop Operating System (not server)
- Intel Core 2 Duo 3.0GHZ (Maximum Performance) with 1 GB available RAM
- 40+ Pages per min (Maximum Performance)
- Ideally, the OCR/OWR processor should reside on a standalone workstation because it is resource intensive
- Requires AIM 7 or later

NOTE: Paperless Workflow[®] requires an available SMTP server for emailing notifications and documents.

NOTE: *OPTIONAL* OCR/OWR Add-On resides on the same machine. Imaging capture tool and OCR/OWR Add-on run as foreground applications, meaning the computer it's running on can't be logged off or shutdown. It is recommended to install the capture tool on a workstation that is not used by any users. Or if running on a server, the server should not be logged off simply lock the screen.

PERFECTLAW ISLIPS WEB SERVICES

- Microsoft Windows Desktop or Windows Server
- Intel Core 2 Duo 3.0GHZ (Maximum Performance) with 1 GB available RAM
- IIS 6.0 or later
- Internet Domain Name Required
- Microsoft .NET 3.5 or later
- Requires AIM Version 7 or later

REQUIREMENTS FOR EXCHANGE PROFILE SERVICE (EPS)

- *Same workstation configuration as above (can reside on the same machine as Paperless Workflow[®])*
- Microsoft Outlook 32 bit
- Microsoft Exchange Dedicated Email Account
 - Application runs as a *foreground application*, Windows desktop must be logged in.

REQUIREMENTS FOR PERFECTLAW[®] EXCHANGE PLSYNC

EXCHANGE 2007/2010

- Software resides on a workstation (or a virtual machine) with Windows 32-bit Desktop Operating System (not server) as a service
- Intel Core 2 Duo 3.0GHZ (Maximum Performance) with 1 GB available RAM
- Requires AIM 7 or later
- PerfectLaw supports Outlook 2007 with Exchange 2007 and Outlook 2010 with Exchange 2010

EXCHANGE 2003

- Software installed on Exchange Server 2003 SP2 or higher as a service
- Single Store and Single Server only
- Requires AIM 5.9 or later
- The workstation must have Outlook 2003 installed

REQUIREMENTS FOR PERFECTLAW[®] FULL TEXT SEARCHING

- Windows 2003/2008 server *

* Windows 2003 or higher required when using full text indexer with Office 2007 documents. Additional disks will be required for Full Text Index storage. Additional Microsoft filter required for Office 2007 document indexing.

NOTE: Full text search of profiled MSG files stored on a Windows 2008 64-bit Server requires Outlook 2010 64-bit installed on the server. Outlook 2010 64-bit not included with purchase.
